Bob has been buying and selling figured wood for almost 25 years and has been building custom furniture for over 30 years. Finding the best material is what got him into the buying and selling of figured wood.

We look forward to an informative and interesting program!

33rd Northeastern Woodworker Show is Ready to Go

Submitted by: Lyle Martens

The membership has responded well and we can report that we have a great group of member tables for demonstrating and selling their products. The committee is thankful that so many of the members have signed up to help in setting up and helping after the show is over on Sunday. There are a great number of door prizes, thanks to the members and several woodwork sponsors that have donated some great woodworking equipment and tools.

We have already been on TV 11 and we are scheduled to be on TV 2 the week of the show. Syble Hopp school will be providing food service this year, which is great. Now it is time to sell tickets as this is our only fund raising activity.

Thanks, Lyle

Tool Crib

By: Tom & Lee Carlson

What is the tool crib?

Guild members can bring in new or old tools that they no longer want or need. Only members of the guild may sell tools in the tool crib. Also, members can donate a tool or tools to the guild. The guild will sell them at the tool crib and apply the proceeds to offset the cost of the spring show.

How do I put tools in the tool crib?

You will be given a tag for each tool that you bring. On each tag you will fill out the following information:

Name/Phone Number: (please use your cell phone number)

Tool: (type of tool)

Condition: (new, used, excellent, good, working ,not working, etc.)

Price: (what you want for the tool) Attach the tag to the tool.

The tool tag must then be entered onto the numbered **Tool Crib Inventory** sheet.

The **line number** on the inventory sheet **must be written on the tag**.

Do I have to be present to sell items in the tool crib?

Yes, you have to be present to sell items. You may designate someone else but either you or your designated representative must be at the show.

What is the selling procedure?

All sales are between the seller and buyer. When a buyer is interested in an item they can call the phone number on the tag or ask the worker at the tool crib where the seller is. Once the seller and buyer have reached an agreement, the seller will give the tag to the worker at the tool crib table. The worker will take the tag; write out a sales receipt and cross off the item on the Tool Crib Inventory sheet. All sold tools must have a receipt. **All sales are between the seller and buyer. The Guild will not handle any money.**

Can I bring in more items on Sunday?

Yes, you may bring in additional items on Sunday.

What happens to the items at the end of the show?

All unsold items must be picked up the seller by the end of the show. The guild will not be responsible for any items not picked up.

Spring Show Raffle Prizes...Member Crafted Items Better Late than Never

Submitted by: Steve Lockhart

Even though we have a number of members signed up to contribute hand made raffle prizes it's not too late to decide to contribute! I am handling the actual raffle drawing at the show and have a new system of keeping track of the items. The system will allow me to accept new donations up to an hour before the show opens Saturday morning. Soooooo..... Even if you are a procrastinator, I will accept your prize! Steve

What Motivates Us?

Submitted by: Paula Martens

Motivation: A force or influence that causes someone to do something.

Each one of us is motivated by something different. One motivation that is common in all woodworkers is a sense of pride and accomplishment once a project is finished. I suspect every woodworker has a few of their handmade items prominently displayed in his/her home to enjoy every day thereafter. There's no better feeling at the end of the day than to say "Yeah, I made that!"

Over the last month, I've thoroughly enjoyed watching the motivation behind 'father and son' while they each created their own musical instrument (a mountain dulcimer). Whether it's completing a '*bucket list*' wish to one day make a dulcimer, or a desire to create '*one of my own*', each one's motivation lead to their own personalized and uniquely decorated instrument. This musical motivation is contagious. It has now infected me to blow the dust off childhood sheet music and periodically sit for a half hour plunking away at the strings.

If you've ever thought of making a dulcimer for yourself, you should come to the Spring Show in March and see for yourself the dulcimers created by Lyle and Rob. It may just motivate you.
