

BENCHTALK

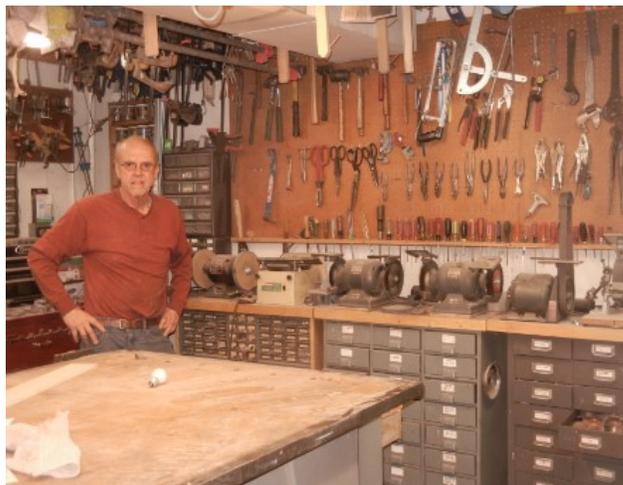

Northeastern Wisconsin Woodworkers Guild

Volume 36: Issue # 1, January 2019

January 16, 2019 meeting: Shop tour: Steve Lockhart's Shop

I will confess that this is not an original idea. I'll give credit to the folks in the Woodworkers Guild in Milwaukee. Their first try at this concept was to ask a member to hold an "open house" at their shop on a Saturday

The feedback, as I understand it, was good for the most part but the folks who hosted the open house (s) complained that there were long periods of time where there were no visitors but tied them down for most of the day. What they ended up doing was recruiting a member to be the camera man (woman) and they made videos which could be played at meetings. Their shop tour video program is successful and it provides a handy alternative for a meeting program when it may be difficult to find a presenter.

Anyway, I have been trying to recruit a camera person to take videos and edit the results for use by the NEWWG (without success). In the hopes that doing one shop tour might cause a volunteer camera person to come forward I decided to do the first tour on my own..... I also quickly found that I don't have video editing skills so my tour will actually be a few short videos combined with mostly still photos.

Here is a short version of what my shop is all about:

It occupies about 800 square ft of my basement. Folks have told me they've never seen so many tools "crammed" in so little space

I have most all the "standard" woodworking machines and hand tools

I have been working to replace many of my newer machines with ones 50 plus years old.

Example: I recently replaced my newer Grizzly 8" jointer with a vintage 1950 Delta 8" with cast iron base.

I have purchased most of the "old" tools at good price off of Craigslist and then restored them.

I have also designed and built a number of unique enhancements Examples:

- 1) My dust collector system has 7 blast gates operated by air cylinders which open and close automatically when a tool is turned on.
- 2) My shop built router table incorporates a power operated lift mechanism for the router which I built from a discarded Skil power screwdriver.

We'll be Talking About the 2019 Spring Show at the January meeting!

By Steve Lockhart

The "Spring Show Committee" (Myself, Pete Schuh, Chuck Druckery, Barry Bender, Ted Zabel, Rob Martens, Paul Murphy and Pat Williams) has determined that we'll keep things pretty much the same as last year. That means there will be a "space fee" of \$ 20 for all those who have 1 or 2 tables. This fee helps defray the cost of renting tables.

Two Differences:

The committee has decided to run a separate "bucket raffle" for tools and other items used by woodworkers (like wood :-)) We will explain this fully at the meeting.

The cost for the "space fee" will be the same as last year (\$20) when submitted on or before February 1 BUT if applications are submitted later than this (but before the final deadline of February 20 the cost will be \$25)

It's getting kinda late in the game but if you have suggestions please be prepared to talk about them at the January meeting!

NOTES FROM PETE SCHUH, GUILD PRESIDENT:

TOY PROJECT

I would like to thank those who donated the wonderful home-made toys.

They were given to "Golden house" The mission of Golden House is to provide safety and support for victims of domestic violence

CHRISTMAS PARTY

Thank you to all that attended our annual Christmas party. I would especially like to thank the WPS choir. They provided an excellent Christmas program, which we all enjoyed.

Also thanks to all that provided door prizes and or a dish to pass. Member participation is what makes our group continue to grow and form new friendships. Thank you Dan and Jane Alesch for providing the table center pieces, cider and helping to set up tables and chairs. Steve Lockhart shopped for the purchased door prizes sponsored by the guild and provided the background music. A special thanks to my wife Cindy for all her help and supporting my involvement in the guild. We had a lot of help cleaning up. Paul Murphy, Ted Zabel, Cindy Schuh and Pat Williams did a great job on K.P. Everyone helping put away the chairs and tables made it an easy job.

LIBRARY

It has been two months since our last meeting so all library materials are due.

2019 NEWWG Spring Show

Submitted by Steve Lockhart

Our Spring Show is fast approaching! We rely on help from each member and especially each participant to make this year's show a success!

The Spring Show committee is hard at work organizing the **March 16 and 17** Spring Show. I urge each one of you to participate! Whether you have a “booth” or help out at the raffle desk, help deliver prizes or any of a number of required tasks it's a great way to promote the guild and get to know other members better.

Important Show details:

1. Please submit your Sign-up form at the January meeting or to Steve Lockhart via email (salockhart@gmail.com) or by snailmail: 2315 Tannenbaum Trail Appleton, WI 54914 before February 1, 2019 (late fees apply)
2. Fee for 1 or 2 tables or equivalent space: \$20 if received by February 1 \$25 if received Feb. 2-20 (Feb. meeting date.) Half a table fee would be \$10 (\$12.50 if received Feb 2-20)
3. There is an expectation that participating members donate a hand made raffle prize.
4. Challenge: Each member is asked to sell 5 books of raffle tickets (\$25)

Dear Fellow NEW Woodworkers Guild Members,

As you know by the newsletters, your Guild BOD members, already have been working on your Annual Spring Show details.

As always, they try to improve the Show each year. This year is no exception. In this process, we welcome any ideas you may have.

This year, after much discussion at the December BOD meeting, we all have agreed there will be a few changes to your spring show. Steve will inform you about the changes at our January meeting.

Paul and Pat have volunteered to be in charge of a **NEW BUCKET RAFFLE** this year. The Guild thinks it would be good to separate the regular raffle. This would allow serious woodworkers to bid on items they feel would be of value to their craft, such as; New Tools, New equipment, New machinery, New specialty woods, etc., while others can purchase tickets for the regular raffle and items such as carvings, wood turned bowls, wood burns, hand sewn items, laser designed items. Etc..

We are working on the details and will share them with you at the January meeting.

We encourage you to bring your ideas.

Thank You, **See you there!**

Pat Williams & Paul Murphy

What's New for the 2019 show?

The show committee has decided to operate two separate raffles:

One raffle for the handcrafted prizes donated by members. This raffle will operate much the same as in past years but there will be no tools or “raw wood” included as prizes

The second raffle will be a “bucket raffle” for donated and purchased tools and supplies used by woodworkers. Tickets will be \$1 each and be the type purchased in rolls from print shops. Ticket buyers will place each ticket in a container designated for the prize that they are interested in. These tickets will not (as required by Wisconsin law) be sold in advance. Separate drawings will be held for these prizes after the “main” drawing.
